Professional Summary

Passionate Full Stack Developer with hands-on experience building responsive web applications using React.js and Spring Boot. Strong understanding of REST APIs, database design, and modern UI development. Focused on writing clean, scalable, and maintainable code.

Technical Skills

Language: Java, JavaScript, SQL

Frontend: React.js, Tailwind, CSS, HTML5
Backend: Spring Boot, Rest APIs

Database: PostgreSQL

Tools: GitHub, Postman, VS code, IntelliJ IDEA

Experience

Technical & Digital Operations Intern - Advance Electric Certificate **Oct 06-2025 --- Mar 30-2026**

• Managed digitisation of 500+ sensitive operational records with zero critical errors — maintained data integrity, applied access restrictions, and followed confidentiality protocols throughout.
• Produced structured compliance-ready reports across 3 departments — documented operational processes and maintained audit-trail-style records for internal review.
• Developed and deployed website features using HTML, CSS, and JavaScript — coordinated with internal teams to deliver updates meeting real business requirements.

Projects

Digital Complaint Resolution System: 👉 Source code View demo **note**:- OTP for Demo is **1234**.

- Developed a responsive Complaint Management System using **React** and **Tailwind** CSS with features like complaint registration, status tracking, dashboard analytics, and local data management.
- Implemented dynamic UI components, state management, and user-friendly navigation to enhance overall user experience.

Weather App : 👉 Source Code View Demo
Tech Stack: React.js, Tailwind

- Built real-time Weather App with **API** integration

News App: 👉 Source Code View Demo
Tech Stack: React.js, Bootstrap, APIs

- Develop a web application of the news.

Hospital Management System: 👉 Source Code
Tech Stack: React.js, Tailwind CSS, Spring Boot, PostgreSQL

- Developed a full-stack web application to manage patients, doctors, and appointments.
- Implemented RESTful APIs using Spring Boot for CRUD operations.
- Designed relational database schema in PostgreSQL.

Education

Delhi Skill Entrepreneurship University, Wazirpur Campus 1 **Aug 2019 --- Sept 2022**
Diploma in Mechanical Engineering **76.77**

Guru Gobind Singh Indraprastha University **Sept 2022 --- May 2025**
Bachelor Of Technology **Lateral Entry:** Information Technology: 76.52 **%** or 7.93 **CGPA**

Certification

IBM full stack web development certificate
